Pathology and Micro Orders in Powerplans

Issue: Micro and Pathology Orders that are part of Powerplans that have order details entered (i.e.Right Click and Modified) BEFORE the order is initiated will have the collected date/time of the Order overwritten with the Date/Time that the Order was initiated

Resolution: Always Initiate Pathology and Micro Orders BEFORE any order details are entered

1. Initiate Phase of Care with Micro and/or Pathology Orders

2. Click on the **blue X** and Fill out required order details including **Collection Date/Time**
