

### Pre-Admission Order for Patient Type

Patient Name \_\_\_\_\_ Date of Birth \_\_\_\_\_ Date of Surgery \_\_\_\_\_

Based on the anticipated surgery and expected post-operative length of stay, the appropriate patient type for this patient is:

Inpatient

Outpatient with anticipated Extended Recovery

Outpatient with anticipated discharge from PACU

If the anticipated patient type should change during the course of surgery or in the post-operative recovery period, I will enter a new order in CPOE.
