## Ambulatory - Outpatient Workflow New Filter Options

June 30, 2021

### New Filter Options Overview

**Enhancements:** New filter options will be available within the **Documents** component on the **Outpatient Workflow Page (Provider View)**, making it easier for end users to locate needed content in a more efficient manner.

**Ambulatory Provider Positions Impacted:** Physician – Cardiologist.

### New Documents Filter Options

From the Outpatient Workflow Navigation Pane, select the **Documents** component. New filter options include:

Filter Name	Included Items
