Ambulatory: Removal of the Office Visit Note Template Enhancements

Removal of the Office Visit Note Template Enhancements Overview

Effective Immediately: The enhancements to the Office Visit Note templates listed below has been removed from Production.

Reason: It was found that this enhancement prevented dictation/text entered into the Assessment and Plan component on the Outpatient Workflow Page from pulling into the note. For this reason, the enhancement has been removed.

Resolution for Notes Already Created: If content is missing from notes already created this morning, providers can modify their notes to copy and paste text entered into the Assessment and Plan component or dictate the needed documentation directly into their note.

Positions Impacted: All Provider positions that utilize the office visit note templates listed below:

Allergy/Immunology Office Clinic Note	Interventional Radiology Office Clinic Note	Physical Med and Rehab Clinic Office Note
Cardiothoracic Office Clinic Note	Nephrologist Office/Clinic Note	Plastic Surgery Office Clinic Note
