Ambulatory: New AdHoc Transcribed Lab Forms

August 30, 2021

New Transcribed Lab Forms Overview

Enhancement: **Effective 8/31/21**, users will have access to 4 new Transcribed Labs Forms within the AdHoc button on the Toolbar. These new forms will make it easier to document lab results done outside of McLaren so that they are visible within the patient's chart. Any results that are transcribed onto these forms will also satisfy any corresponding Health Maintenance items.

- **Transcribed Lab: Chemistry**
- **Transcribed Lab: Common Labs**
- **Transcribed Lab: PSA**
- **Transcribed Lab: Urine Microalbumin**

Positions Impacted: All Ambulatory Providers and Clinical Staff.

Access the New Transcribed Lab Forms from AdHoc

1) From within a patient's chart, select the **AdHoc** button on the Toolbar.

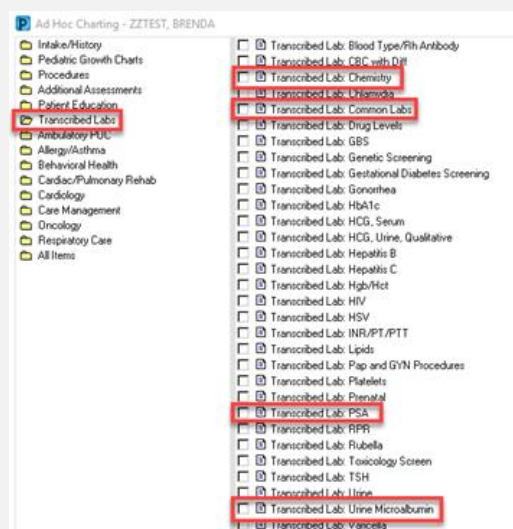

2) Select the **Transcribed Labs** folder from the left-hand side.

a. All of the available Transcribed Lab forms will display on the right:

- **Transcribed Lab: Chemistry**
- **Transcribed Lab: Common Labs**
- **Transcribed Lab: PSA**
- **Transcribed Lab: Urine Microalbumin**

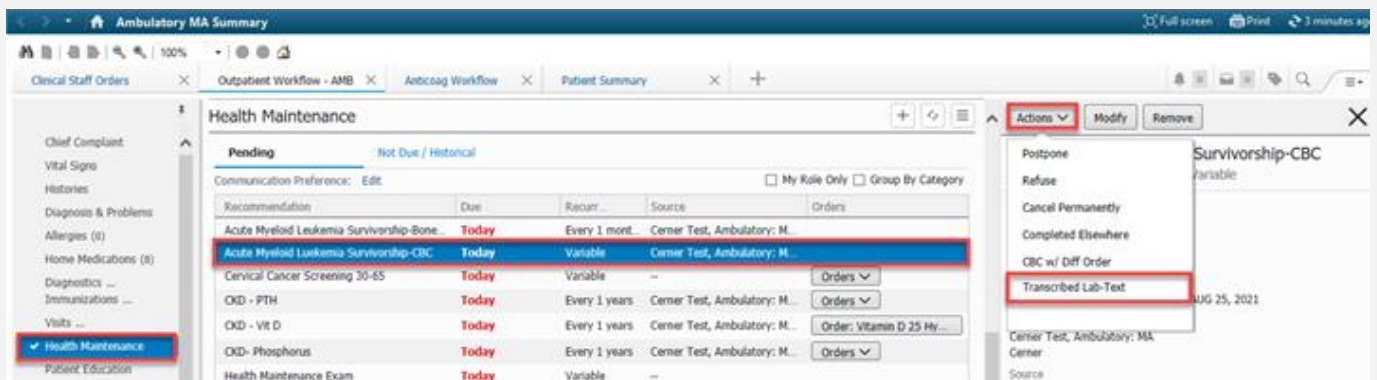

b. Select the appropriate form and click **Chart** to start your documentation.

Access the New Transcribed Lab Forms within the Health Maintenance Component

- 1) Users will also be able to access the appropriate Transcribed Lab form within the **Health Maintenance** component on the Outpatient Workflow page.
 - a. To access the form, select the appropriate **Recommendation**.
 - b. Select the **Actions** dropdown and choose **Transcribed Lab – Text**.

- 2) The appropriate **Transcribed Lab** form will display for staff to document the result that was done elsewhere.
 - a. Use the green **Sign Form** checkmark icon to sign the form when done.

- 3) Once documented, the Recommendation will be satisfied and drop do the **Not Due/Historical** section until the next time it is due.
