Referral – Ambulatory Order: Conversion of External Practices

Nov 2, 2021

Referral – Ambulatory: Conversion of External Practices to Affiliated Overview

Enhancement: Beginning on 11/8/21, when placing a Referral – Ambulatory order and searching for a location that is outside of McLaren, users will notice that practices who participate as part of McLaren’s ACO (Accountable Care Organization) will now display as Affiliated, instead of External within the Referral Provider Lookup window. This will make it easier to locate these practices when needed, since they will display along with McLaren internal locations.

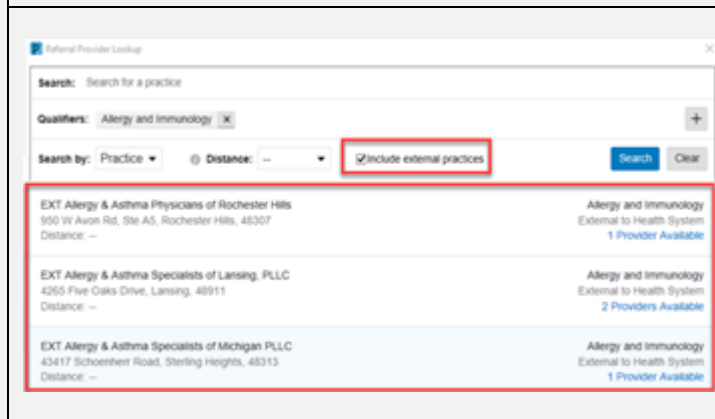

- **Important Note:** This conversion will take place gradually over 2 weeks beginning on 11/8/21. All sites will not be converted at the same time.

Positions Impacted: All Ambulatory Staff.

Referral – Ambulatory: Referral Provider Lookup Window

Before

Practices who participate as part of McLaren’s ACO display with an EXT prefix and the **Include External Practices** checkbox needed to be selected in order for them to display within the Provider Lookup window.

Referral Provider Lookup

Search: Search for a practice

Qualifiers: Allergy and Immunology

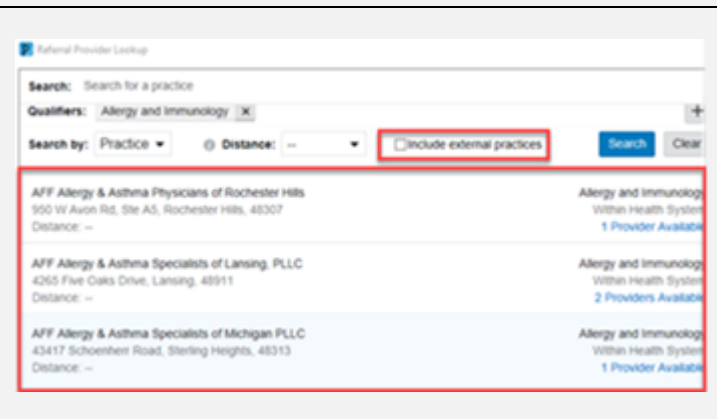

Search by: Practice Distance: --

Include external practices

EXT Allergy & Asthma Physicians of Rochester Hills 950 W Avon Rd, Ste A5, Rochester Hills, 48307 Distance: --	Allergy and Immunology External to Health System 1 Provider Available
EXT Allergy & Asthma Specialists of Lansing, PLLC 4265 Five Oaks Drive, Lansing, 48911 Distance: --	Allergy and Immunology External to Health System 2 Providers Available
EXT Allergy & Asthma Specialists of Michigan PLLC 43417 Schoenherr Road, Sterling Heights, 48313 Distance: --	Allergy and Immunology External to Health System 1 Provider Available

After

Practices who participate as part of McLaren’s ACO will display with an AFF prefix and will display along with Internal Practices within the Provider Lookup window. The **Include External Practices** checkbox **will not** need to be selected.
