Ambulatory: Referral – Ambulatory Order Out of Network Field **Nov 2, 2021**

## Overview: Referral – Ambulatory Order: Reason for Out of Network Field

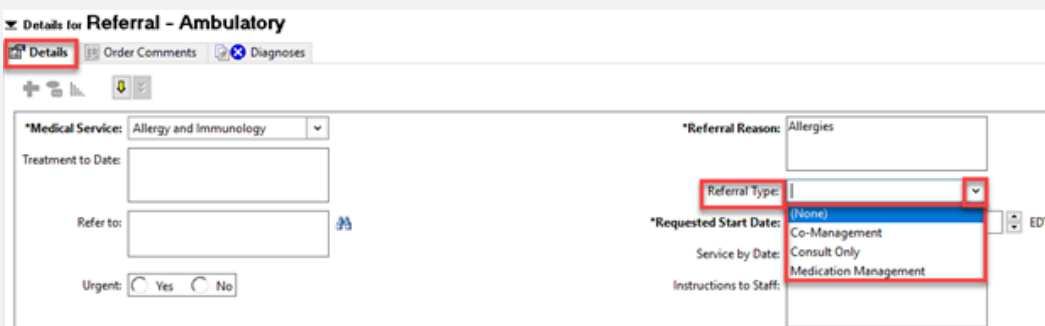

**Enhancement:** Effective 11/8/21, the **Referral Type** field within the **Referral – Ambulatory** order **Details** tab will be replaced with a new field labeled **Reason for Out of Network**. When a patient is referred out of network, users will be able to choose the reason why from the Reason for Out of Network dropdown. Satisfying this field will enhance reporting and tracking capabilities for referrals that are sent out of network.

Please reach out to your Operations Manager for any questions or concerns.

**Positions Impacted:** All Ambulatory Staff.
