Ambulatory: OBGYN Clinic Orders Page Enhancement

May 18, 2023

OBGYN Clinic Orders Page Overview

Enhancement available in PROD 5/18/23: Referral orders with order sentences (indicating the Medical Service) and Internal Ancillary referral orders have been added to the Follow Up Requests component on the OBGYN Clinic Orders page in PowerChart. This will ease the ordering process for Women's Health Providers when placing referral orders for their patient.

Prior to this enhancement: Only the generic Referral – Ambulatory order was available.

Provider Positions Impacted: All Women's Health Providers

Referral Orders on the OBGYN Quick Orders Page

- 1) Women's Health Providers will now have access Referral – Ambulatory orders that include the medical service and Internal Ancillary Referrals via their **OBGYN Clinic Orders** page.
 - a. The referral orders are available within the **Follow Up Requests** component. There will be 2 sections within the component:
 - **Referrals:** Provider referrals that display the medical service.
 - **Internal Ancillary Referrals:** referral orders for McLaren ancillary services.
