Ambulatory: POC Powerform Enhancement

May 15, 2023

## POC Powerform Enhancement Overview

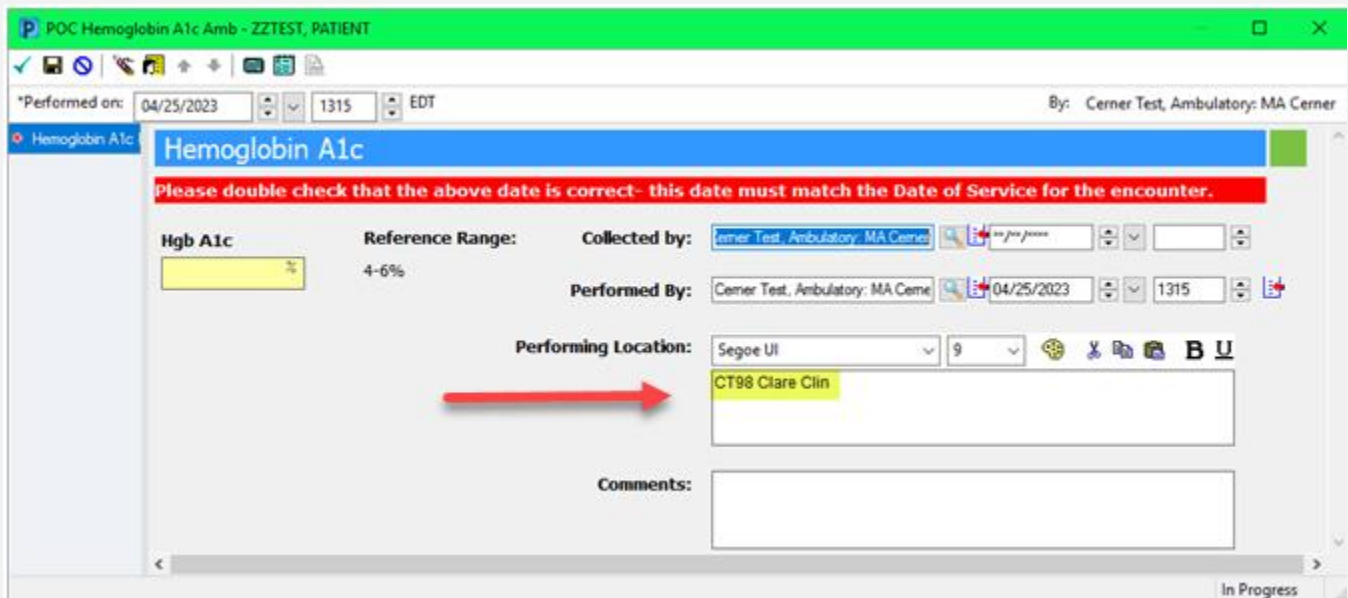

**Enhancement:** Effective **May 15, 2023**, the Performing Location field that displays within POC Powerforms will automatically display the clinic location that correlates with the location of the FIN that the POC order was placed on.

**Prior to this Enhancement:** Clinical Staff manually entered the clinic's location code/name into the Performing Location field within the POC Powerforms.

**Positions Impacted:** All Ambulatory Clinical Staff positions.

## Performing Location field on POC Powerforms

- 1) When documenting a POC test via the Task List the corresponding Powerform displays.
  - a. If the Powerform contains a **Performing Location** field, the clinic's Cerner Location Code and Name will automatically display based on the FIN the order was placed on.
