Ambulatory: Prior AUTH Workflow Change

May 18, 2023

Prior AUTH Workflow Change Overview

Change Effective Immediately:

- **Description of Change:** Clinical Staff no longer need to document Prior Authorization information into the scheduling system. They will continue to document in PowerChart on the Prior Authorization form only.
- **Reason for Change:** Financial Clearance will add the authorization to the encounter. This allows the encounter to remain in their worklist for validation.
- **Positions Impacted:** All Ambulatory Clinical Staff and/or those in the clinic obtaining Prior Authorization.
- For additional information, access the updated job aid using the link below:
