Code Status Order Updates
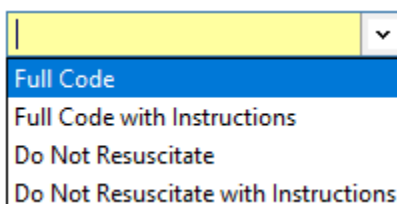

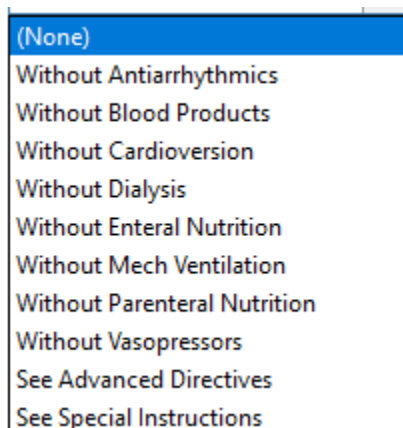

2 Code Status types have been added; Full Code with Instruction and Do Not Resuscitate with Instructions to accommodate Advanced Directive specificity from patients and to allow for the specificity requested by providers for orders without as much typing.
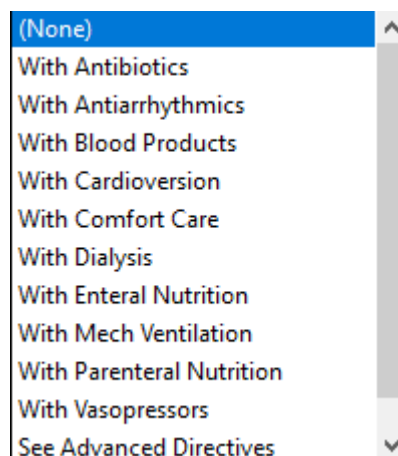

Full Code
Full Code with Instructions
Do Not Resuscitate
Do Not Resuscitate with Instructions

There are corresponding Multiple Select Fields (use the CTRL key to select more than one) for each new type.

Full Code Instructions	**Do Not Resuscitate Instructions**

Full Code Instructions
(None)
