Prioritization of Diagnoses Update One McLaren Sites

Beginning 9/12/2023, once a provider prioritizes their diagnoses for a patient, those prioritizations will remain in place regardless of how another provider prioritizes their diagnoses. This functionality **REQUIRES** providers to prioritize diagnoses within their M Page.

Diagnosis & Problems Prioritization MUST be done here.

Prioritizing diagnoses through the “dark menu” will not honor those prioritizations by individual provider within their documentation moving forward.
