Cerner ECG Management PowerPlan Updates

Why were PowerPlans Updated?

- As part of the shift from Pyramis to ECG Management, the EKG orders will change.
 - Electrocardiogram 12 Lead** will be replaced by **ECG 12 Lead (93005 / 93010)**
 - Electrocardiogram 15 Lead** will be replaced by **ECG 15 Lead (93005 / 93010)**
- In support of this transition, all McLaren PowerPlans, including Phases and Sub-Phases, were updated with the new orders. These updates will take effect when McLaren Bay Region activates Cerner's ECG Management.

What do I need to do?

- For Plan favorites where **Electrocardiogram 12 Lead** or **Electrocardiogram 15 Lead** are **NOT** pre-selected, nothing needs to be done. The system will automatically display the new orders.
- For Plan favorites where **Electrocardiogram 12 Lead** or **Electrocardiogram 15 Lead** are pre-selected, please pre-select **ECG 12 Lead (93005 / 93010)** or **ECG 15 Lead (93005 / 93010)** and re-save the plan.

<p>1. Acknowledge the message.</p>	
<p>2. Pre-select the new order.</p>	
<p>3. Re-save the plan favorite.</p>
