

Cerner Flash

6/2/2023

Point of Care(POC) Devices Note to all Clinical Staff

All applicable POC devices will need to be docked prior to 2245 on 6/2/2023 to ensure any active results are able to be interfaced to ONE McLaren Cerner. Results not transmitted prior to the interface switch will need to be manually entered into the legacy system(ALAB or Northern Legacy PathNet)

This includes, but is not limited to, Glucometer, RapidComm, ABL90's and iStat machines.
