Ambulatory: New Patient Health Questionnaire & General Anxiety Disorder Powerform

New Patient Health Questionnaire & General Anxiety Disorder Powerform Overview

Enhancement effective 2/3/23: The new Patient Health Questionnaire & General Anxiety Disorder Powerform will be available via AdHoc in Cerner PowerChart. This form combines the GAD7 and PHQ9 questions so users can document all of answers in one convenient location.

Prior to this enhancement: If GAD7 and PHQ9 questions need to be documented for a patient, users would need access two separate Powerforms to do so.
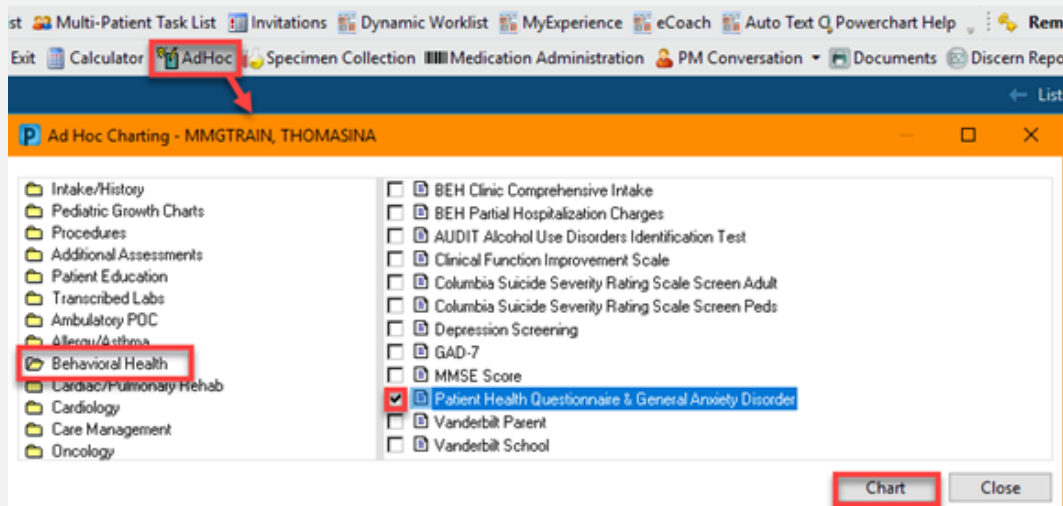

- *Note*: *The individual GAD7 and PHQ 9 Powerforms will still be available to use when needed.*

Positions Impacted: All Ambulatory Provider and Clinical Staff positions that have access to the Behavioral Health Adhoc folder.

Follow the instructions below to access the Powerform.

Accessing the Patient Health Questionnaire & General Anxiety Disorder Powerform

1) To access the **Patient Health Questionnaire & General Anxiety Disorder** Powerform, from within the patient's chart:
   a. Click the **AdHoc** button on the Toolbar.
   b. Select the **Behavioral Health** folder.
   c. Select the **checkbox** in front of the desired form.
   d. Click **Chart**.
