

Cerner Flash

Effective 10/17/2023

We have noticed that we have a large amount of unsigned nursing narrative notes. Unsigned nursing notes never become part of the permanent medical record and cannot be viewed by anyone but the staff whom created that note.

In an effort to prevent this moving forward, we have removed the ability to 'Save' or 'Save and Close' for all nursing notes for Acute Nursing positions. The only option they will have now is to 'Sign' or 'Cancel'.
