Ambulatory: OBGYN Clinic Orders Page Enhancement

June 1, 2023

OBGYN Clinic Orders Page Enhancement Overview

Enhancement available in PROD Today: A new component labeled “Labs to be done post 6/3” has been added to the OBGYN Clinic Orders page in PowerChart. This component contains commonly used PathNet orders. This will ease the ordering process for Women’s Health Providers when placing PathNet orders for their patients to be collected post 6/3/23.

Prior to this enhancement: Only the MLab version of the orders were available.

Provider Positions Impacted: All Women’s Health Providers.

PathNet Orders on the OBGYN Quick Orders Page

- 1) Women’s Health Providers will now have access to commonly used PathNet orders via their **OBGYN Clinic Orders** page.
 - a. The PathNet orders are available within the **Labs to be done post 6/3** component.
 - b. Choose the appropriate section to display the corresponding PathNet orders.
