

# Cerner Flash

01/25/2023

## **Radiology Accession Number Change** **All departments performing Radiology Examinations**

### **Background**

The McLaren Labs are switching in late April to a new program (PATHNET)  
Since Lab and Radiology use similar programs within Cerner, a change for the order accession number is needed.

### **Radiology New Accession -Go-Live**

Date: **Wednesday, February 1, 2023**

Time: **5am**

Radiology will have a bridge line open from February 1-3, an invite will be sent out to the Managers

### **How this will work**

Each McLaren location has been assigned a Site Prefix number

This site prefix number will now be a part of all accession numbers to the imaging location

### **Who is affected**

It only affects the Radiology orders, this includes Vascular Ultrasound.

This also includes the MMG practices that perform Radiology procedures.

Cardiology orders such as ECHOs or Stress Test will not be affected

### **More specific information will be sent to:**

Radiology Directors/Managers

PACs Administrators

MMG Directors

CIS's for each location

Outside contractors who support Radiology functions

Radiology Billing Companies
