PCA Documentation Updates Acute Nursing Units

Visual Enhancement	Details to Enhancement
	<p>Added PCA on view in the Adult-Lines-Devices to have it upfront for staff to review.</p>
	<p>There are detailed medication fields in iView requiring redundant transcription. Shift hand-off, beginning or hanging subsequent bags can be performed using the MAR/Medication order rather than transcribing into iView. These were removed to limit the possibility of transcription errors and cut down on manual documentation.</p> <p>Hidden Fields:</p> <ul style="list-style-type: none"> • Concentration • Concentration Unit of Measure • Continuous Basal Rate Dose • Continuous Basal Rate Dose Unit • Demand Dose • Demand Dose Unit of Measure • Lockout Interval (minutes) • Dose Limit • Dose Limit Unit of Measure • Dose Limit Interval (hours) <p>Added Fields:</p> <ul style="list-style-type: none"> • Response (comfort responses) • PCA Additional Details (free text)
	<ul style="list-style-type: none"> • Added Discontinue as a choice to Assessment Type • Added a field for Response including options for Comfort increasing, decreasing, or not changing • Added a field for PCA Additional Details to allow for free text notes
