Ambulatory: Prevnar 20 and Pneumococcal Vaccine Recommendations

Pneumococcal Vaccines in Cerner PowerChart

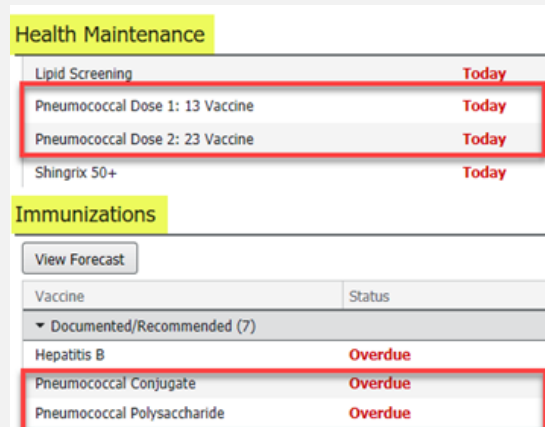

Enhancement: **Effective immediately**, on the Outpatient Workflow Page, Prevnar 20 will now satisfy the Immunization component and Health Maintenance recommendations for both the Pneumococcal Conjugate and Pneumococcal Polysaccharide vaccines when administered in-office or documented in the patient's chart as a historical immunization.

Prior to this Enhancement: Prevnar 20 did not satisfy both Pneumococcal vaccines in the Health Maintenance or Immunization component when administered in-office or manually documented.

Positions Impacted: All Provider and Clinical staff positions

Health Maintenance and Immunization Component

1) Prior to Prevnar 20 being documented in the chart, the **Health Maintenance** and **Immunizations** components listed both Pneumococcal vaccines as being due for the patient.

Health Maintenance

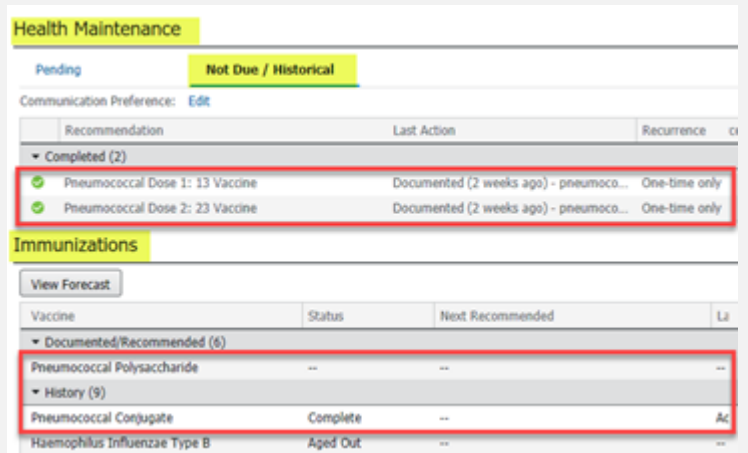

Lipid Screening	Today
Pneumococcal Dose 1: 13 Vaccine	Today
Pneumococcal Dose 2: 23 Vaccine	Today
Shingrix 50+	Today

Immunizations

View Forecast

Vaccine	Status
Documented/Recommended (7)	
Hepatitis B	Overdue
Pneumococcal Conjugate	Overdue
Pneumococcal Polysaccharide	Overdue

2) Once Prevnar 20 was documented in the patient's chart, both Pneumococcal vaccines were satisfied in both the **Health Maintenance** and **Immunizations** component.

Health Maintenance

Pending | Not Due / Historical

Communication Preference: Edit

Recommendation	Last Action	Recurrence
Completed (2)		
✓ Pneumococcal Dose 1: 13 Vaccine	Documented (2 weeks ago) - pneumoco...	One-time only
✓ Pneumococcal Dose 2: 23 Vaccine	Documented (2 weeks ago) - pneumoco...	One-time only
