Ambulatory: Referring Patients to McLaren PT, OT, and Speech January 9, 2023

## McLaren OT, PT, and Speech Referrals Overview

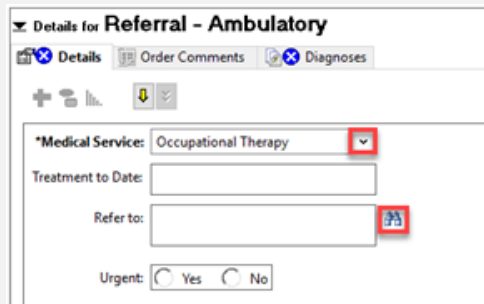

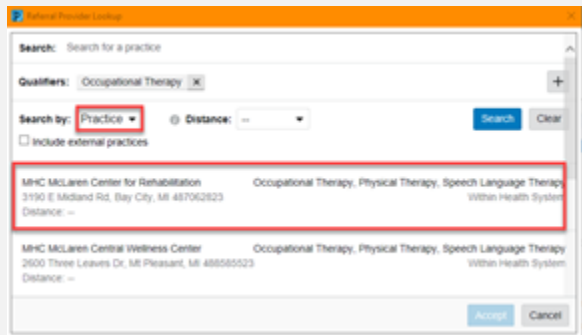

**Effective 1/16/23:** McLaren Physical Therapy, Occupational Therapy and Speech locations will be added to Referral Management to ease the ordering process when referring patients for these services.

Users will place the **Referral – Ambulatory** order and choose the appropriate Medical Service when searching for McLaren PT, OT, and Speech locations.

**Prior to this Change:** Providers used individual “Referral to” orders to refer to these McLaren Ancillary Services. These orders will be removed from Cerner PowerChart:

- Referral to Occupational Therapy Evaluation and Treatment Outpatient
- Referral to OT Evaluation and Treatment Outpatient
- Referral to Physical Therapy Evaluation and Treatment Outpatient
- Referral to PT Evaluation and Treatment Outpatient
- Referral to Physical Therapy for Pelvic Health Eval and Treatment
- Referral to PT for Pelvic Health Eval and Treatment
- Referral to Speech Services

**Positions Impacted:** All Ambulatory Provider and Clinical Staff positions.
