## Stroke PowerPlan Updates

The language in the outlined NIHSS orders has been updated to reflect the regulatory requirements and clinical clarity requested by the stroke team.

### New language

	Offset	Component	Status	Dose ...	Details
NEURO Hemorrhagic Stroke Admit Orders (Planned Pending)					
Patient Care					
<input checked="" type="checkbox"/>		Resuscitation Status			Full Code
<input checked="" type="checkbox"/>		NIHSS and Pupils			T;N, Once, on admission, transfer, Q shift and with any neuro decline
<input checked="" type="checkbox"/>		NIHSS and Pupils			T;N, Q1H
<input checked="" type="checkbox"/>		Vital Signs			T;N, Q1H, 24 hr
<input checked="" type="checkbox"/>	+24 hr	Vital Signs			T;N, Q1H
<input checked="" type="checkbox"/>		Notify Treating Provider Vital Signs			T;N, Systolic BP greater than 160 mmHg, Systolic BP less than 110 mmHg, HR greater than 120 beats...
<input checked="" type="checkbox"/>		Intake and Output			T;N, Q1H
<input checked="" type="checkbox"/>		Weight			T;0500, Q24H
<input checked="" type="checkbox"/>		Blood Glucose Monitoring POC			T;N, Q8H 24 hr
<input checked="" type="checkbox"/>		Notify Treating Provider Laboratory Results			T;N, Glucose greater than 160, To obtain insulin orders.
<input checked="" type="checkbox"/>		Stroke Quality Measures			
<input checked="" type="checkbox"/>		Stroke Education			Q12H

### Previous language

	Offset	Component	Status	Dose ...	Details
NEURO Hemorrhagic Stroke Admit Orders (Planned Pending)					
Patient Care					
<input checked="" type="checkbox"/>		Resuscitation Status			Full Code
<input checked="" type="checkbox"/>		NIHSS, Pupils and GCS			T;N, Q12H, Perform full NIHSS on admission, transfer, Q shift and with any neuro decline
