Troponin Orders Acute Clinical Areas

During the PathNet transition, it was identified that there was an issue with the reflex timing when ordering serial Troponins. To remedy this issue, a Troponin subphase was added to the PowerPlans listed below and can also be ordered as a standalone PowerPlan.

The PowerPlan can be found by typing "Troponin" within the order search window.

Example of the Troponin T High Sensitivity Orders and Serial Monitoring PowerPlan

The following PowerPlans contain the Troponin T High Sensitivity Orders and Serial Monitoring Subphase
