## Documentation of Blood Collection from IV Insertion

Impacted Areas: Emergency Department / Roles: Nursing

Go to Activity list and select the Peripheral IV task and select the Document button.

Document necessary fields for the IV insertion activity. \* Don't select "Blood Drawn" in the Activity window. Only "Insert"

Tab down or click into Blood Collection Method under the Venipuncture/Line Draw iView Band. Open up Blood Collection Method window and select "Venous". This will generate the appropriate charge for the venipuncture process.
