Ambulatory - EMG Folder Name Changes

Tuesday March 16, 2021

Folder Changes Overview

Update #1: EMG Interpretations and their **Supporting Documentation** will now be filed in the patient's chart in specific folders that make it more convenient for providers and staff to find.

Folder Filed in Previously:	Folder Filed in Moving Forward:
Diagnostic Report	Electromyography
Electromyography	Neurodiagnostic

Update #2: EMG interpretations will be manually forwarded to the ordering provider's Message Center for signature from the EMG department.

EMG Interpretations Previously:	EMG Interpretations Moving Forward:
<ul style="list-style-type: none"> Providers were not notified when EMG Interpretations were complete. Providers would have to access the Interpretations via patient's chart. 	<ul style="list-style-type: none"> Providers will now receive the EMG Interpretations via Message Center where they can review without having to leave the Message Center.

Positions Impacted: All Ambulatory Positions.

Viewing EMG Interpretations & Supporting Documentation

1.) Within the **Notes** tab:

- Double-click the **Neurology Procedures** folder.

2.) Select the **Plus** sign next to the:

- Electromyography** subfolder to view EMG interpretations.
- Neurodiagnostic** subfolder to view EMG supporting documentation.
