## Changes to Patient Isolation/Precautions Order

During the Cerner implementation at Central, a request was made to change the Patient Isolation/Precautions order to reflect isolation/precautions for patients being ruled out for or have Covid-19.

1. Droplet/Contact/Eye Protection has been added to the Isolation Ordered field:

Details for Patient Isolation/Precautions

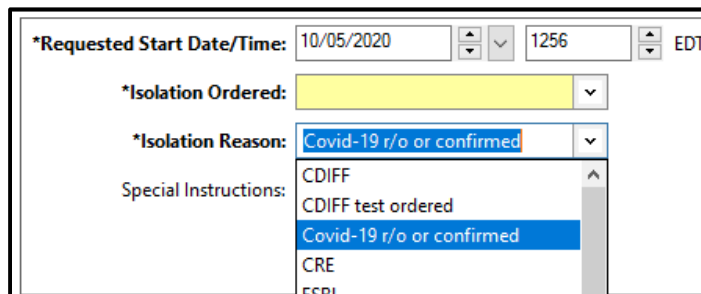

\*Requested Start Date/Time: 10/05/2020 0815 EDT

\*Isolation Ordered: Droplet/Contact/Eye Protection

\*Isolation Reason: Airborne, Airborne/Contact, Contact, Contact Precautions Plus, Droplet, Droplet/Contact, Droplet/Contact/Eye Protection

Special Instructions: Contact Precautions Plus, Droplet, Droplet/Contact, Droplet/Contact/Eye Protection

2. Covid-19 r/o or confirmed has been added as an isolation reason

\*Requested Start Date/Time: 10/05/2020 1256 EDT

\*Isolation Ordered: [Yellow box]

\*Isolation Reason: Covid-19 r/o or confirmed

Special Instructions: CDIFF, CDIFF test ordered, Covid-19 r/o or confirmed, CRE, ESPI

3. Being that the Banner Bar can only display one Isolation/Precaution status, it will display the most current order. All active isolation/precaution orders can be found in the Orders and Care Compass sections of the EMR.
