

CERNER FLASH

Ambulatory - Message Center Summary View Enhancement

December 31, 2020

Patient Summary Enhancement Overview

Enhancement: Effective 12/31/20, a new Future Orders component will be added to the Message Center Patient Summary Page. This will allow users to view Lab, Radiology, and Referral orders that are overdue, due, or upcoming for the selected patient.

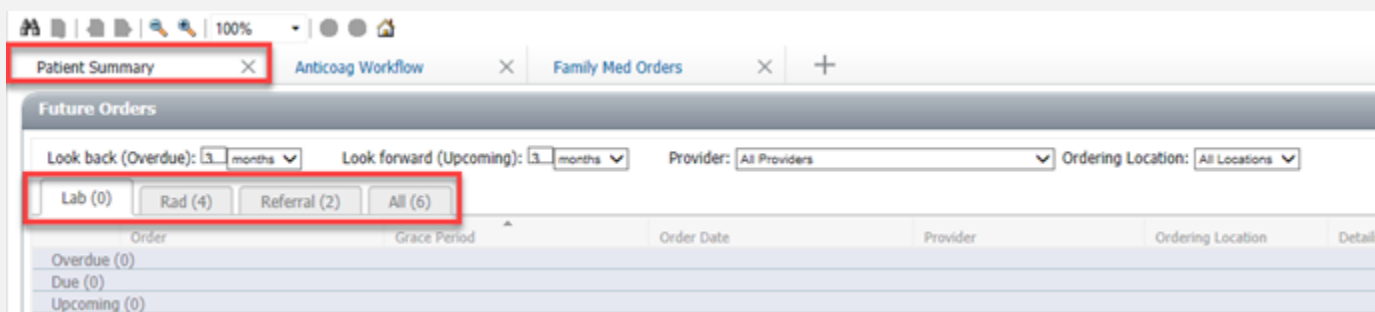

Positions Impacted: Ambulatory (see grid on page 2 for full list of positions).

Future Orders Component

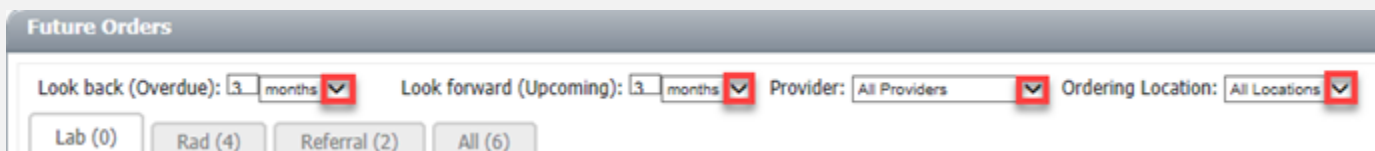

1.) From within a message, select the **Summary View**.

2.) The **Future Orders** component will display at the top of the **Patient Summary** page. Users can select the appropriate tab to see specific orders that are Overdue, Due, or Upcoming for the patient.

3.) Use the display filters at the top to narrow the list if needed.

CERNER FLASH
